### Midwest Manufacturer

*“With short 15 minute breaks, PayRange enabled us to get 50% more people served in the same time. More importantly, frustrations from the vending experience no longer linger into the workplace after the break is over. My employees are more productive when they are happy and not hungry.”*

### Northeast Call Center

*“We use PayRange to offer daily incentives, and it has proven to be very effective. Meeting today’s goals for volume or satisfaction, earns a free beverage the next day. The rep with highest metrics for the month gets free vends for a month. Because rewards are realized every day, the impact is high while the cost is low.”*

### Pacific NW Tech Company

*“We offered, like most tech companies, free snacks and beverages. But people were wasting product and taking items home. We put PayRange on the machines, and while still free, it has reduced our costs 35% while maintaining the same level of satisfaction. In fact, it feels more fun and like an actual paid benefit offered by the company.”*

It's awesome! If I don't have money on me and I need a snack this app saves the day. Much safer and less expensive than using my card on the machine.

Love this app/service! Couldn't be easier to fund and use. So convenient; I only hope more vending machines join the club.
